

Going OnLine

Part 2

STAT:5201

Overview

● Plan:

- I will use my PDF lecture slides to create recorded movies. I am able to write on the PDF notes with a stylus (pen) and this allows me to add extra comments/notes/graphics while I record my voice for the lecture.
- These movies will each be about 15 minutes, and 2 or 3 movies will coincide with each MWF lecture.
- This week's M and W lectures are posted now in ICON under 'Online Lectures'.
- These will be *.mov* files. Apple's QuickTime programs, and Windows Media Player are all able to play *.mov* files. I believe iPad (iOS) devices will also play these files. If we have any issues, I can convert to *mp4* files (but I haven't had trouble in the past).
- I plan to upload them to ICON on the day of the lecture (by 12:30), but I may be able to upload multiple lectures early.

Class poll: Raise your hand if you have successfully downloaded and viewed a posted lecture movie in ICON.

- **Plan Addition:**

- I would like to do a few 'live' Zoom lectures.
- This will give you a chance to ask questions or just touchbase.
- Perhaps once a week for a synchronous 'live' lecture (it will be taped so you do not have to be present).
- If I have zero participants, I will go back to non-synchronous lectures :)

Let's take a poll, show of hands for who **WOULD** be interested in the occasional synchronous lecture...

Homework

- Homework will be assigned as usual and appear on our public course home website.
- Electronic submission of HW7 went well. Some options used:
 - 1 Write out the mathematical equations using LaTeX.
 - 2 Use Paint 3D on laptop, do handwriting, save as image and then embed in Word or Latex.
 - 3 Use scanner on the iPhone by... Opening 'Notes' on iPhone, creating a new note, tap the camera icon at the bottom, it will give you an option of Scan documents. The camera will scan the document and save as a PDF. (This is preferred over *just* a smart phone picture.)
 - 4 Take a picture and embed it in Word or LaTeX.
- Completed homework will be uploaded to ICON while we're doing Online Teaching.

Homework - returning work

- I've emailed with the grader, and it sounds like he has the ability to use "add stick notes" to a PDF on his Mac.
- He will use this to show you the points that you received and to add comments.
- They will be returned electronically via email.

Homework - returning work, sticky notes on PDF

STAT:5201

Homework 7 Solutions - Comments for grader

Most of their homework was probably done using software, so there may not be much shown for each problem.

In all the sample size problems, if they are only off by 1 (i.e. if they didn't round-up, just take a point off).

STAT:5201

Homework 7 Solutions - Comment

A yellow rectangular sticky note with black text. It is circled in blue. The text on the note reads: "Good comments, Prof. DeCook."/>

Good comments, Prof.
DeCook.

Most of their homework was probably done using software, so there may not be much shown for each problem.

In all the sample size problems, if they are only off by 1 (i.e. if they didn't round-up, just take a point off).

Homework - office hours/help via email and Zoom

- 1 If you have a question, **first try email**. I can often convey what is needed through that platform, but not always.
- 2 Office hours: 9:30-11am M & W (the usual)

BUT I WILL NOT START THE ZOOM OFFICE HOURS UNLESS I GET AN EMAIL REQUESTING HELP!!

So, just email me if you need help on homework or you have other questions that can't be answered by email, and we can connect via Zoom by joining the scheduled meeting.

Exams - Exam 2 Friday April 3

- Exam 2 will be this Friday from 12:30-1:20pm.
- I may be able to set a time for release on ICON, or I will send the PDF via email.
- I'd like to use Zoom as a proctoring tool
 - You will be connected during the exam.
 - ICON has online quizzes, but I'm not sure I want to stay within the limitations.
 - Proctorio may be another option, but I'm not sure I'll get much more than what I will get with a Zoom proctoring.
 - It will be open note, but it will be long enough that you won't be able to look everything up in that amount of time!!!
 - MAKE A NOTECARD FOR YOUR YOURSELF!!

- Returning exams:
 - At 1:20pm, you should take a photo of your work (each page with a picture) and send it to me via email (this is a place holder for the actual submission).
 - As soon as you can after 1:20pm, I'd like you to upload the submission to ICON in the same manner as you uploaded HW7.

- Discussion...
